

Making Software Development Easier, One Search at a Time

Friday May 4

3:30-4:30

Hance Auditorium

Dr. **Kathryn Stolee** is an Assistant Professor in the Department of Computer Science at North Carolina State University and a 2018 recipient of an NSF CAREER award. Previously, she was the Harpole-Pentair Assistant Professor of Software Engineering at Iowa State University. She is a three-time graduate of the University of Nebraska-Lincoln, earning her PhD degree in 2013. Her research interests are in software engineering, program analysis, code search, empirical studies and program repair.
